

Year 5 Home Learning Summer 1

Reading

Children will get the opportunity to visit the library to choose a book to read. Please encourage your child to read a little each day.

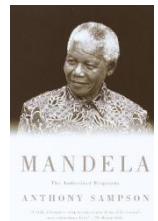

Maths

MyMaths homework will be set as per the new home learning policy with weekly tasks linked to class topics. There will be a weekly start and end date for each task set meaning a shorter window of completion.

English – Biographies

This half term we are continuing to look at 'Henry's Freedom Box'. We will be looking at writing our own biography based on someone in the book. You could have a look at any biographies (or autobiographies) that you have at home or write your own biography about someone famous that you admire, either from the present or the past. You can use the following link for more information. <https://www.bbc.co.uk/bitesize/articles/zbj3sk7#z42dxg8>

Science – Living things and their habitats

Pick an animal from one of the classes of animals (e.g. mammals, birds, fish, reptiles, amphibians). Research the life cycle of your chosen animal and then create a poster or a presentation on the computer all about the life cycle of your chosen animal.

Topic – Rivers

Research and create a pictorial fact file about a river in the UK. You could include the features of the river stages, why rivers were important to early settlers, length, any flood management features used.

Wellbeing

Design a poster to show the different things that you are **grateful** for in your life today.

PE:

Challenge yourself to create a full body warm up that could be used in a PE lesson in school.
