Within the structure of Create Club sessions, there are many key skills that are being addressed

These areas include:

- Producing creative work and exploring their ideas, experiences and imagination
- Using drawing, painting, sculpture and other creative expression and using a range of materials to design and make products.
- Developing techniques with colour, pattern, texture, line, shape, form and space using clay and printing to a large scale and in 3D.

Most of all we want the children to have fun, try new things and enjoy the process of making. We look forward to meeting you and cannot wait to create awesome things with you.

If you wish to enquire about our sessions, please feel free to contact us on the information below.

Kindest Regards,

Lucy Porter
