

Year 5 Home Learning Autumn 2

Reading

Children will get the opportunity to visit the library to choose a book to read. Please encourage your child to read a little each day.

Maths

My Maths homework will be set as per the home learning policy with weekly tasks linked to class topics. There will be a weekly start and end date for each task set meaning a shorter window of completion.

English – Writing Challenge

On the home learning page, you will find two writing prompts. Use the prompts to produce a piece of creative writing. When you have finished, upload a copy to SeeSaw.

Science – Materials and their Properties

Pick a variety of materials from around your house. Think about the ways you could describe them and how you could group them. Take pictures of your groupings and upload them to Seesaw. Remember to be creative with your descriptions and groupings!

Geography – Physical and Human features – The Alps

Write a definition explaining what human and physical features are. Then apply this knowledge to identify physical and human features you would find in The Alps. Draw or write a description of the features, explaining where they can be found.

Wellbeing – Fill a Cup with Compliments

On a page, draw an outline of a mug. In the mug we would like you to write down as many compliments (nice things you could say to somebody) as you can fit in. Try to then use these compliments to help someone feel good about themselves.

Computing – Online Safety

Create a poster reminding children how to stay safe online. What top tips would you give to children? How can you keep your personal information safe?
